Forecast for Monday 22 Feb 2021

Weather: Cloudy and rather murky with light rain overnight but rain perhaps clearing from the west by daybreak. Then a cloudy start to the day with light rain, but dying out through the morning with brighter conditions developing and increasing amounts of sunshine through the afternoon. Dry with clear spells in evening.

Chance of cloud free mountain/hill tops above 800m: 20% overnight and at first in the morning, improving 80% by the afternoon.

Visibility: Areas of cloud above 400-500m overnight and into the morning. Cloud lifting and breaking by the afternoon, with visibility becoming good at all levels.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Mild with light winds at all levels until later in day, but fast flowing river courses and soggy ground after recent rain.

Forecast for Tuesday 23 Feb 2021

Weather: Dry with clear spells overnight but becoming cloudier. Cloud will thicken and lower in morning to bring patchy, mainly light rain from the west, though eastern hills may stay dry with perhaps still some brightness in the afternoon.

Maximum wind: South or SW 35-40 gust 60mph overnight, then increasing 40-55 gust 70mph.

Chance of cloud free mountain/hill tops above 800m: 90% overnight but falling to 10-30% in morning.

Visibility: Mainly good overnight with most cloud above the tops, but becoming poor or very poor at height in morning as areas of cloud develop down to 500-600m, though extensive down to 400m over western slopes in afternoon.

Temperature: **Valleys:** Plus 6C rising to 12C.
At 800m: Plus 2C rising to plus 5 or 6C.
Freezing level: Above the summits.
